Martin Luther King's, "I have a Dream" speech was a speech from the American Civil Rights movement. His dream was to make America understand that everyone is created equal no matter what their skin color.

His dream was to see that all African Americans get justice and freedom. He wanted to see everyone have equal treatment and opportunities. King stated, "I want to transform the nation into a beautiful symphony of brotherhood where every American will be able to work together, pray together, struggle together and stand up for freedom together."

My dream for the future of the world is that the vaccine for Covid-19 is available for everyone around the world and the world is Covid-free. I also wish that everyone would stop polluting our environment. This can harm animals. It may also harm humans because the pollution produces a large amount of carbon dioxide in our environment.

Dr. King is brave because he tried to end segregation, even though he got locked up in jail and got assassinated. He is kind because he wasn't just fighting for himself. He was fighting for everyone who suffered injustices. Dr. King is a great legacy to ALL people in our world!
