

# Congress of the United States

Washington, DC 20515

March 8, 2024

Mr. David Neeleman  
Chief Executive Officer  
Breeze Aviation Group, Inc.  
6340 South 3000 East, Suite 400  
Salt Lake City, Utah 84121

Dear Mr. Neeleman,

We are writing in regard to the recent news that flight attendants employed by Breeze Airways have announced a campaign to form a union with the Association of Flight Attendants-CWA, AFL-CIO (AFA) and have filed for an election with the National Mediation Board. We urge you not to interfere with these organizing efforts.

Breeze Airways employs nearly 600 flight attendants across the United States – including 99 based at Bradley International Airport in Connecticut. We are excited that Breeze is continuing to offer additional flights from Bradley International Airport. As you continue to expand your operations and presence in Connecticut, it is important that the workforce powering that expansion remains free to decide whether they would like to unionize, free from any employer interference.

Now more than ever, Americans recognize the important role that labor unions play in securing safe working conditions, fair pay, and respectful treatment for the workers they represent. A number of recent high-profile contract negotiations have thrust labor unions into the public eye and given greater visibility of them than in years past. As more workers explore whether or not joining a union is right for them, executives like you have an important role to play in showing these workers that their rights will be respected by those in positions of authority. Your non-interference will give workers the confidence they need to make the decision that is best for them and their families.

Please let us know how we can be helpful as this process moves forward.

Sincerely,

Christopher S. Murphy  
United States Senator

Richard Blumenthal  
United States Senator
